

STEDHAM WITH IPING ANNUAL PARISH MEETING 23/04/2025

MIDHURST AREA CYCLING FOR

We have just heard that WSCC is about to start on the scheme to make central Midhurst a 20 mph area.

Among the streets affected will be Church Hill, South Street over the bridge and Chichester Road and The Wharf. This will make it much safer for cyclists to cross from the Jubilee Path over the bridge to The Wharf. And of course, it will make much safer and more pleasant for people to get around central Midhurst.

We have also heard that Phase 1 of the Midhurst Greenway, (from South Midhurst to Easebourne via the Jubilee Path, The Wharf and Ruins), is underway with detailed planning for a crossing of New Road near the fire station.

The Rother Valley route from Petersfield to Midhurst and on to Petworth and Pulborough is virtually being run by MAC members and Chris Steibelt is going to talk about it.
